1.7	Principal's Report The Principal gave her report drawing attention to the following: <ul style="list-style-type: none"> • Enrolment figures could not yet be finalised as there were still a number of late applicants and the census date is 6 weeks after the start of term, however currently the numbers were down by 150 which will have a serious detrimental impact on the College's finances. It had been anticipated that the college would have 1902 students. For this year however the demographic dip and the adverse local press coverage regarding staff redundancies and the repeated coverage of the student car accident had had an impact on the enrolment figures.
