

Summer Preparation for A-Level Drama and Theatre Studies

Set by Lisa Crew

British history and folklore is littered with tales of Dragons – both home grown and global creatures. I ask you to do the following:

- 1) Find the individual stories of Britain's dragons and research how not only our stories, but our landscape, has been shaped by dragons.
- 2) How have international dragons impacted the UK? Why do we remember their stories? How are our histories entwined?
- 3) Write an essay that demonstrates understanding of the research above, and knowledge gained, combining myth and history, along with illustrations entitled "Dragons".

This can be submitted via email to LCRE@henleycol.ac.uk once it has been completed.
